

Network for Inherited Cardiac Conditions Scotland (NICCS)

Please find below some education resources* which may be of interest to health care professionals working in the care of cardiac conditions in Scotland.

*Please note that NICCS does not endorse the content/availability of information hosted on external websites.

Educational Resource	Website
UK Cardiac Pathology Network (UKCPN) YouTube Channel Presentations from UKCPN Annual Conference which is aimed at pathologists and may also be of interest to others. Presentations available include: • Alcohol and the heart • Arrhythmogenic cardiomyopathy • Valve disease • Obesity and the heart • Myocarditis	https://www.youtube.com/channel/UC2ceSe_Z4Wx7X58zNwk7HPQ
Heart Education Awareness Resource and Training through eLearning (HEARTe) This e-learning resource is aimed at health and social care staff who may: • be new to cardiac/heart disease – such as rotational staff or those new in post • wish to refresh / extend their existing cardiac knowledge and skills • be community based with a mixed pathology case load including cardiac patients • have limited access to other cardiac specific training	https://www.chsselearning.org.uk/hearte/
Core Learning in Inherited Cardiac Conditions (CLICC) - South East Genomics The aim of this programme is to provide core training in inherited cardiac conditions (ICC). The target audience is doctors in training, specialist nurses, genetic counsellors, cardiac physiologists, non-ICC specialist cardiologists and primary care physicians. The website includes links to recordings on sessions held on Inherited arrhythmia syndromes and ICC services and Inherited cardiomyopathies.	https://southeastgenomics.nhs.uk/resources/core-learning-in-inherited-cardiac-conditions-clicc/
Scottish Muscle Network Neuromuscular conditions often lead to patients having cardiac follow-up which is mentioned in a number of information sources as guidance through this network and may be relevant to patients under cardiac care.	Guidelines – Scottish Muscle Network

NICCS Virtual Education Sessions

NICCS hosts virtual education sessions aimed at health care professions with an interest in Inherited Cardiac Conditions (ICCs). Recordings of previous sessions are available to watch via the NICCS Education dedicated MS Teams Channel.

To gain access to these please email nss.niccs@nhs.scot

Date	Title	Speaker(s)
2021		
25/06/21	Device Therapy in ICC	Sowmya Venkatasubramanian
27/08/21	ECG Interpretation	Dr Yun Heng (Victor) Hong
29/10/21	Current Clinical Trials in ICC	Dr Caroline Coats
2022		
20/05/22	Heart Disease Action Plan	Morven Dunn/ Leanne MacKlin
24/06/22	Variants Interpretation	Dawn O'Sullivan
26/08/22	Peripartum Cardiomyopathy	Alice Jackson
30/09/22	ICC in Pregnancy/ Contraceptive Choices for ICC Patients	Maggie Simpson
25/11/22	Genetic Testing in Children	Dr Ruth McGowan
2023		
27/01/23	Brugada Syndrome	Dr Neil Grubb
24/02/24	Management of Marfan Syndrome	Dr Anne Child, Marfan Trust
31/03/23	Case Discussion Session	Various Speakers
28/04/23	ECGs and Red Flags	Dr Rachel Myles
30/06/23	Case Discussion Session	Various Speakers
25/08/23	Paediatric Cardiomyopathies	Dr Maria Ilina
29/09/23	Preimplantation Genetic Testing	Sally Morton
27/10/23	Case Discussion Session – South East of Scotland	Various Speakers
24/11/23	Fabry Disease in patients with HCM	Dr Sabrina Nordin
2024		
26/01/24	Variant interpretation	Dr Pete Constantinou
23/02/24	Inherited Arrhythmias in Children	Dr Karen McLeod
27/03/24	SCD & OOHCA in ICCs	Helena Davison
26/04/24	Updates in cardiac gene therapy	Dr Paz Tayal
30/05/24	Muscular disorders associated with CMA	Dr C McWilliam
28/06/24	Case Discussion - North of Scotland	David Bailie / Adele Lewis
30/08/24	MyInsight: Cardiomyopathy UK National Survey	Katharine McIntosh
25/10/24	Variant interpretation and classification using a cardiac case study	Somya Ellis
01/11/24	The autopsy & SCD	Dr Rob Ainsworth
2025		
31/01/25	Risk assessment in cardiomyopathy	Dr Caroline Coats
28/02/25	Update on GENVID Video testing study	Dr Ruth McGowan
28/03/25	Case Discussion Session – South East of Scotland	Philip Greene
30/05/25	Cardiac genetic testing in Scotland...where we are and the need for demand Optimisation	Dawn O'Sullivan
29/08/25	Psychological Support for ICD recipients: Insights from a pilot service	Dr Bruce Irvine
31/10/25	Accessible Patient Information	Richard Forsyth
2026		
30/01/26	Exercise Risk in Cardiomyopathies.	Dr Caroline Coats,
27/02/26	An overview of REDCap	Jacqueline Campbell
27/03/26	Vascular Ehlers-Danlos Syndrome	Dr Glenda Sobey/Professor Nigel Wheeldon

If you have suggestions for any other educational resources which could be included in this list please email nss.niccs@nhs.scot
