

NICCS is a nationally managed clinical network. Our goal is to make sure that people affected by inherited cardiac conditions (ICCs) get high-quality care, in good time.

We work closely with people and families with these conditions to find out what matters most to them and to see what more we can do. Let us know what support you would find helpful or if you would like to get involved. Please scan the QR code to get in touch.

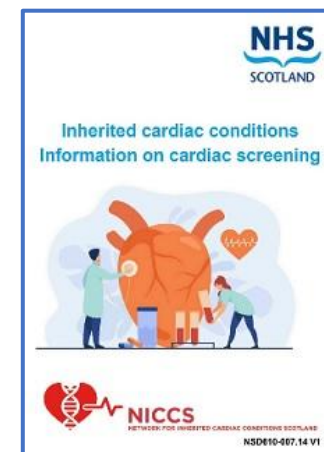

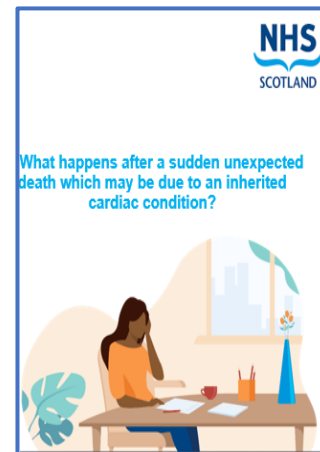

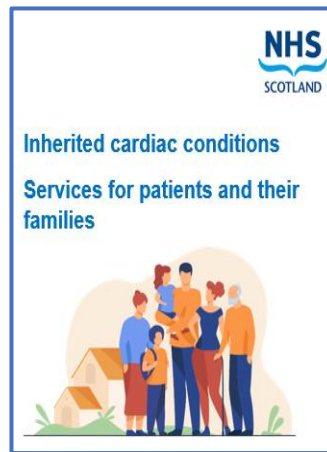

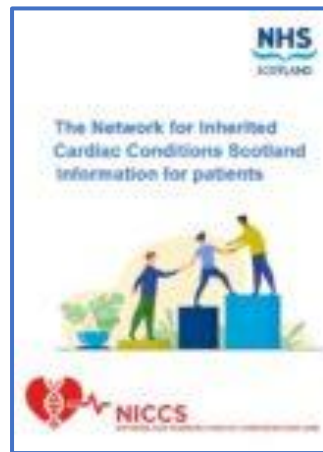

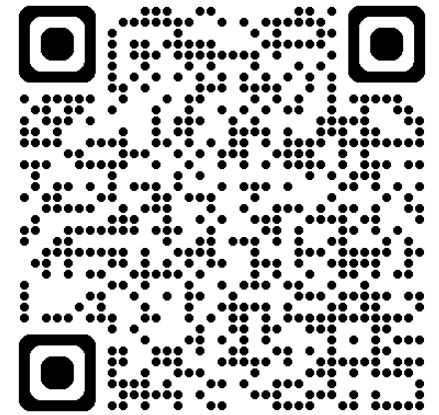

Find out more about what we do and how we can support you on our website www.niccs.scot.nhs.uk or email nss.niccs@nhs.scot

Further information about ICC services in Scotland is available at www.nn.nhs.scot/niccs/about-us/service-map/
