

Scottish Acquired Brain Injury Network (SABIN)

Online lecture series 2025

Save the Dates

This free event is particularly targeted at consultants, trainees, nursing staff and AHPs who care for patients with ABI, but who many not all have undertaken specialist training in the subject.

What's on?

Community rehabilitation case studies (from admission to discharge by CRT)	Dr Jane-Marie Stobie	Wednesday 14 May at 12 pm
Neuropsychological approaches in Paediatric ABI	Dr Kirsten Verity and Dr Jo Phillips	Wednesday 28 May at 12 pm
Use of blood and imaging biomarkers to characterise traumatic brain injury and change future clinical pathways: insights from current research	Dr Virginia Newcombe	Thursday 19 June at 12 pm
Adult Attention Deficit Disorder & Autism, challenges in diagnosis and management	Dr Premal Shah	Thursday 21 August at 12pm
Cognitive-communication difficulties following Traumatic Brain Injury	Mrs Lynn Grayson	Thursday 18 September at 12 pm
Neuropsychological issues after trauma	Dr Blanca Poveda	TBC—September 2025

More information on the work SABIN does can be found at our website:
