

PLANNING FOR THE FUTURE

Are you a patient with mesothelioma and want to know about preparing for the future? We have a short course for you, delivered by mesothelioma health care professionals on Zoom.

Week one:

Role of your keyworker, what is an MDT and what is performance status

Week two:

Symptom control, pain and shortness of breath

Week three:

Symptom control, cough, sweating, fatigue and diet management

Week four:

Important documents and palliative and end of life care

**4 x weekly Zoom sessions starting
Wednesday September 4th**
