

Scottish Paediatric & Adult Infection & Immunology Network

2026 Education Programme

SPAIIIN hosts education sessions aimed at health care professions with an interest in infectious diseases and immunology. The education sessions last for an hour and take place at lunchtime on the last Thursday of alternate months via MS Teams. Sessions will be recorded and available to watch later via our dedicated SPAIIIN Education MS Teams Channel.

If you would like to attend any of these sessions, or be added to our SPAIIIN Education MS Teams channel to view previous sessions please email nss.spaiin@nhs.scot
