

Save the Date – Friday 21 November 2025

The Visual Impairment Network for Children and Young People (VINCYP)

Supporting children with visual impairment and complex needs training event

This one-day, in person course, offers an introduction and overview of childhood visual impairment aimed at healthcare professionals involved in paediatric care, education and third sector employees new to the field of childhood visual impairment.

Topics include: the function of the eye, the role of vision in development, common developmental disorders, the causes of childhood visual impairment and the diagnostic process

Where: Moray House School of Education and Sport, University of Edinburgh

Fee: £60 - includes lunch

How do I register: you can scan this QR code to register your interest or complete the form on our website at: www.nn.nhs.scot/vincyp/news-and-events/events, or email nss.vincyp@nhs.scot.

Please note, registration does not guarantee a place, this will be confirmed to you directly in due course.

Registration will close on Friday 26 September
